

i-dose[®] E.73

ECO-FRIENDLY HEAVY-DUTY FLOOR CLEANER

Description:

E.73 is an ultra-concentrated, eco-friendly and powerful floor cleaner for use on all water-resistant hard floors.

Properties:

Powerful cleaning capability and low-foaming. E.73 is safe for use on all water-resistant hard floors. It is ideally suited for the daily and periodic cleaning of industrial floors such as car park and garage floors. It is less suitable for cleaning floors that have a protective (polymer) coating. E.73 is 100% safe for the environment, contains no dangerous components, is gentle on the skin and is completely safe for people and animals. Very suitable for daily use.

Benefits:

- Bio-based and easily bio-degradable
- pH-neutral range, non-classified and fully safe for use
- Effective against all greasy non-organic and petroleum based soil types such as motor oil.
- Unique innovative composition with powerful bio-solvents and effective bio-surfactants
- Low foaming, fast acting, quick drying time without streaks
- Universal application, suitable for all types of water resistant hard floors and a broad spectrum of soils
- Economical cleaning through effective performance at low dosages
- Specially developed for scrubber driers: fast solution pick-up and optimal recovery tank use

Instructions for use:

E.73 is only dosed via the i-dose system into the tank of i-mop floor scrubber. Follow the instructions for use of your i-dose and i-mop systems.

Dosage:

- 1 i-dose pod per i-mop tank filled with clean water.
- In case of heavily soiled floors or strong cleaning, you can increase the dosage to a maximum of 2 i-dose pods with no risk of leaving a residue.

Innovative sustainable technology:

E.73 is based on innovative molecular technology. All our products are developed in line with the strict guidelines of the HYGENIQ sustainability manifesto. Visit <https://www.hygeniq.com/manifesto/> for more information.

Packaging:

i-Team uses 100% recyclable materials. Thus, this material is 100% recyclable and can be turned into valuable post-consumer plastic. The use of this packaging is our means to global warming.

- 10 x 10 ml. I-dose pods in one sleeve
- 12 x i-dose sleeves (120 pods) in one box Art. code: K.10.72.0444.6

Technical information:

- Green liquid
- pH in concentration: approximately 8,5

Transport, handling and storage:

E.73 is non-classified. There are no restrictions for the transport, handling and storage of the product. However, it needs to be protected from frost.
