

**VC008GL203 VC008GZ07 (TOOL ONLY)**

**40V MAX XGT® BRUSHLESS HEPA FILTER 32MM BACKPACK VACUUM**

“The Makita® 40V max XGT® Brushless HEPA Filter Backpack Vacuum is a powerful and portable clean-up solution that eliminates extension cords that trail corded backpack vacuums. The VC008G features an efficient Makita-built BL™ Brushless Motor that generates 18kPa of suction, with 4 power modes for user convenience.

The 40V max XGT® Brushless HEPA Filter Backpack Vacuum weighs 4.1Kg (with an empty dust bag and 40V 2.0Ah batteries) and has padded shoulder straps and waist belt with multiple adjustments for a comfortable fit. Cordless and compact, the push button power selection controller attaches to the waist belt of the harness for convenient operation.

The efficient HEPA filter combined with the filter bag captures large, small and micro dust particulates, and the 2L dust collection container is easily removed for dust disposal. When using a 40V 5.0Ah battery, users will get up to 110 minutes of continuous operation on low setting and 14 minutes on max setting.

**VC008GL202 INCLUDES:** VC008GZ06 40V max XGT® Brushless HEPA Filter 32mm Backpack Vacuum, BL4080F 2 x 40V XGT 8.0Ah Batteries, DC40RB 40V max XGT® Dual Port Rapid Charger

<b>SUCTION POWER</b>	25 / 55 / 100 / 195 W
<b>CAPACITY</b>	2.0 L
<b>NOISE LEVEL</b>	60 / 63 / 66 / 72 DB
<b>DIMENSIONS</b>	233 X 158 X 413 MM
<b>WEIGHT</b>	4.1 KGS

**POWER**

Powerful BL™ Brushless Motor generates 18kPa/195W of suction power

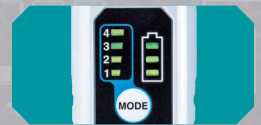

**PERFORMANCE**

Up to 110 minutes of continuous run time on normal setting and 14 minutes on max setting using 40V 5.0Ah battery (BL4050F)

**TECHNOLOGY**

An efficient two-stage HEPA filter captures 99.97% of particulates .3 microns and larger extending the life of the main filter

**DESIGN**

A noise level of 60 dB(A) or less is achieved in Quiet mode [mode 1] for ideal for cleaning in noise-sensitive areas like age care

**VC008GL202 VC008GZ06 (TOOL ONLY)**

**40V MAX XGT® BRUSHLESS HEPA FILTER 28MM BACKPACK VACUUM**
