

Safety Data Sheet: NoPests® Disposable Fly Bag

1. IDENTIFICATION

Product Name: NoPests® Disposable Fly Bag Trap
Other Names: N/A
Recommended Use: Fly Attractant and Trap **Distributor:** Key Industries Ltd
Address: PO Box 65 070 Mairangi Bay, Auckland 0754
Telephone: 09 917 1791
Emergency Phone: 027 4941659
National Poisons Centre: 0800 764 766

2. HAZARDS IDENTIFICATION

Hazard Classification: None Identified

Hazards: The trap substrate contains no hazardous ingredients. The attractant is composed of formulated proteins and carbohydrates with other permitted food ingredients and is non-hazardous.

3. COMPOSITION: INFORMATION ON INGREDIENTS

Ingredient	CAS Number	Concentration (%w/w)

4. FIRST AID MEASURES

Consult the National Poisons Information Centre 0800 POISON (0800 764 766) or a doctor in every case of suspected chemical poisoning. Never give fluids or induce vomiting if a patient is unconscious or convulsing regardless of cause of injury. If breathing difficulties occur seek medical attention immediately.

Eye contact: In case of contact, hold eyes open and rinse slowly and gently with water for 15-20 minutes.

Remove contact lenses if worn after the first five minutes and continue rinsing. If irritation occurs, call a doctor for medical advice.

Skin contact: Wash hands thoroughly after handling product with water and soap. Prolonged contact with bait may cause irritation. If irritation occurs, call a doctor for medical advice.

Inhalation: If adverse effects are felt, move person to fresh air. If symptoms persist call a doctor for medical advice.

Ingestion: In case of ingestion, rinse out mouth with water. Do not induce vomiting. If feeling unwell after ingestion occurs call a doctor for medical advice. No acute and delayed effects are expected.

Due to the formulation type, it is not likely to need special or immediate medical treatments

5. FIRE FIGHTING MEASURES

Extinguishing media

Suitable extinguishing agents: dry chemical, foam, carbon dioxide (CO₂).

Special hazards arising from the substance or mixture

Carbon oxides formed when the product is burned.

Advice for fire fighters

Evacuate area of all unnecessary personnel. Use standard firefighting procedures

Precautions for fire fighters and special protective equipment

6. ACCIDENTAL RELEASE MEASURES:

Emergency Procedures

Prevent product from escaping to drains and waterways. Contain leaking packaging in a containment vessel or bunded area. Prevent any vapors or dust from building up in confined areas. Ensure that drain valves are closed at all times. Clean up minor spills immediately.

Methods and materials for containment for a major spill

In case of spillage contain the spill and collect using standard absorbents such as sand or vermiculite. Seal in a suitable container and remove for disposal. Dispose of in accordance with local, state or national legislation. Wear appropriate protective equipment. The use of gloves is recommended. Avoid contamination of soil, water sources and sewage.

Safety Data Sheet: NoPests® Disposable Fly Bag

7. HANDLING AND STORAGE

Precautions for safe handling

Keep out of reach of children. Do not open packaging until time of use. Do not eat, drink or smoke when handling the product. Wash hands thoroughly after handling with water and soap.

Conditions for safe storage

Store in a cool, dry place away from direct sunlight. Keep away from heat and ignition sources.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters

Exposure limits are not available for any of the substances contained in the mixture. There are no known side effects resulting from the use of the finished product.

Exposure controls

Personal protection information provided in this section is based upon general information as to normal uses and conditions. Where special or unusual uses or conditions exist, it is suggested that the expert assistance of an industrial hygienist or other qualified professional be sought.

Individual protection measures, such as personal protective equipment (professional user)

Eye/face protection: Avoid contact with eyes. No type of specific protective equipment is required.

Hand protection: Not generally required under normal use conditions.

Skin protection: Not generally required under normal use conditions.

Respiratory protection: Not generally required under normal use conditions.

Environmental exposure controls

Avoid contamination of soil, water sources and sewers.

9. PHYSICAL AND CHEMICAL PROPERTIES

The trap material is generally regarded as having no significant hazard related properties

Appearance: Polymer based bag trap with integral attractant pouch

Odour: Slight – fish (pre-use)

Odour threshold: None

pH: Not applicable for the product.

Melting point/freezing point: > 90°C

Initial boiling point: Not applicable for the product.

Flash point: > 100°C

Evaporation rate: Not established for the product.

Flammability: Not established for the product

Vapour pressure: Not applicable for the product.

Vapour density: Not established for the product.

10. STABILITY AND REACTIVITY

Reactivity: No reactivity reactions are known or expected to occur as to normal uses conditions.

Chemical stability: The product is stable under recommended storage conditions.

Conditions to avoid: Protect product from heat and direct sunlight.

Incompatible materials: None known.

Hazardous decomposition products: Not expected under the conditions of use.

Possibility of hazardous reactions: No hazardous reactions are known or expected when the product is stored and handled according to the recommended instructions

11. TOXICOLOGICAL INFORMATION

To the best of our knowledge the toxicological properties have not been fully investigated. The product is composed of low toxicity components and no toxicological hazard is associated with this material. Due to the characteristics of the formulation, effects on soil, water, air, plants or animals are not expected.

Safety Data Sheet: NoPests® Disposable Fly Bag

12. ECOLOGICAL INFORMATION

To the best of our knowledge the toxicological properties have not been fully investigated. The product is composed of low toxicity components and no toxicological hazard is associated with this material. Due to the characteristics of the formulation, effects on soil, water, air, plants or animals are not expected.

13. DISPOSAL CONSIDERATIONS

Product Disposal: Do not allow product to reach sewage system. Dispose of in accordance with community, national or regional laws.

14. TRANSPORT INFORMATION

ROAD: Not classified as dangerous
SEA: Not classified as dangerous
AIR: Not classified as dangerous

15. REGULATORY INFORMATION

MPI Approval Number: N/A
EPA Approval Number: N/A
HSNO Classifications: N/A
HSNO Controls: N/A
Tracking: Not required

16. OTHER INFORMATION

Reasons for Issue:

MSDS written for new product.

The information sourced for the preparation of this document was correct and complete at the time of writing to the best of the suppliers knowledge. Each user should read this MSDS and consider the information in the context of how the product will be handled and used in the workplace. The document represents the commitment to the company's responsibilities surrounding the supply of this product, undertaken in good faith. This document should be taken as a safety guide for the product and its recommended uses but is in no way an absolute authority. Please consult the relevant legislation and regulations governing the use and storage of this type of product. For further information, please contact Key Industries Limited.
